

## An open letter to all our stakeholders and future generations of our community:

We, \_\_\_\_\_,

endorse the goal of powering every business and farm in Maine with 100% clean energy. We encourage the owners of Maine's businesses and farms to reduce their own emissions from fossil fuel by 100%, over time, in ways that benefit their own operations as well as all our communities. To help achieve this goal, we enthusiastically urge our stakeholders to support and do business with people who are leading their companies and farms "On The Pathway To 100% Clean Energy."

Our signatures below affirm our resolution.

\_\_\_\_\_  
EXECUTIVE DIRECTOR AND/OR BOARD CHAIR

\_\_\_\_\_  
DATE OF BOARD RESOLUTION

The Pathway To 100% Clean Energy project is a nonprofit, nonpartisan effort created by and for business owners, inspired by a founding independent Advisory Board, and maintained by a volunteer Project Manager.
